MEMORANDUM ON THE OBJECTS OF THE MARINE LIVING RESOURCES AMENDMENT BILL, 2013

1. PURPOSE AND BACKGROUND

- 1.1 Fisheries fall within the legislative competency of the national sphere of Government and is regulated in terms of the Marine Living Resources Act, 1998 (Act No. 18 of 1998) (the MLRA). This is in line with the constitutional imperative to protect the environment and secure the ecologically sustainable development and use of natural resources while promoting justifiable economic and social development.
- 1.2 The purpose of the Marine Living Resources Amendment Bill, 2013, is to provide a legal framework for the implementation of the Policy for the Small-Scale Fisheries Sector (the Policy) in South Africa, published as Government Notice 474 in *Government Gazette* No. 35455 on 20 June 2012, and to transform the inequalities of the past fisheries system in the measures it introduces.
- 1.3 The development of the Small Scale Fisheries Policy has taken place within a very challenging and complex context. The Policy comes almost two decades after the promulgation of the MLRA and after long-term commercial fishing rights were allocated. Small-scale fishing is not recognised in the MLRA that regulates access to, and the consumptive use of, marine living resources. The allocation of commercial fishing rights negatively impacted on the traditional fishing communities and their lifestyles as a large percentage of these fishing communities did not receive any allocations.
- 1.4 The small-scale fishing communities are faced with high levels of abject poverty, unemployment and food insecurity. There is an obligation on the State to give effect to an Equality Court order to implement the Policy Framework that will effectively accommodate small-scale fishers and ensuring equitable access to marine living resources for these fishers. The Marine Living Resources Amendment Bill will give recognition to and enable the allocation of fishing rights to identified fishing communities who have previously been excluded from the commercial fishing rights allocation process in South Africa.

2. DETAILED ANALYSIS OF THE PROVISIONS OF THE BILL

2.1 Clause 1: Amendment of section 1 of Act 18 of 1998

This clause amends section 1 to insert, amend or delete definitions.

Section 1 of the MLRA is amended to insert the definitions of “small-scale fisher”, “small-scale fisheries sector” and “small-scale fishing community” as set out in the Policy. These definitions are required to identify, verify and register small-scale fishers and small-scale fishing communities.

Section 1 of the MLRA is amended to add to the definition of “South African person” a co-operative registered in terms of the Co-operatives Act, 2005 (Act No. 14 of 2005). This will enable small-scale fishers to access the benefits and support of the Department of Trade and Industry to co-operatives.

Furthermore, all references to the word “subsistence” in the MLRA are to be deleted and replaced with the word “small-scale”. This will entrench small-scale fisheries in the fisheries management systems.

2.2 Clause 2: Amendment of section 2 of Act 18 of 1998

Three new principles and objectives that will guide the interpretation, administration and implementation of the Policy are added to the current principles and objectives of the MLRA. The new principles and objectives will ensure that decision-makers must have due regard to the need to promote marginalised groups such as women. It also highlights the importance of food security, socio-economic development and the alleviation of poverty. It further recognises the allocation of a basket of species as opposed to single species allocations.

2.3 Clause 3: Amendment of section 14 of Act 18 of 1998

This clause includes small-scale fishers and prescribes that the Minister may allocate the allowable catch in quantity and mass.

2.4 Clause 4: Amendment of section 18 of Act 18 of 1998

This clause provides that no person may undertake small-scale fishing, engage in mariculture or operate a fish processing establishment unless a right to undertake or engage in such an activity or to operate such an establishment has been granted to such a person by the Minister.

2.5 Clause 5: Amendment of section 19 of Act 18 of 1998

This clause proposes a new section 19 to replace the current section 19 of the MLRA. This section deals with the management of the small-scale fisheries sector. It determines the establishment of fishing areas or zones for small-scale fishers, the recognition of small-scale fishing communities and the possible prohibition of other fishing or related activity which may impact negatively on small-scale fishing.

This clause also determines that processes and procedures relating to the allocation and management of small-scale fishing rights, the criteria for recognition of small-scale fishers and communities and any other administrative or procedural matter that may be necessary, must be set out in regulations and that small-scale fishing rights may only be transferred with the Minister's approval.

2.6 Clause 6: Amendment of section 24 of Act 18 of 1998

This clause includes small-scale fishers and prescribes that the Minister may in respect of any fishery, determine, after consultation with the Forum, that the portions of the total allowable catch, the total applied effort, or a combination thereof, allocated in any year to small-scale, local commercial and foreign fishing, and rights granted in respect thereof, shall be reduced.

2.7 Clause 7: Short title and commencement

This clause provides for the short title of the Act and that the Act will come into operation on a date fixed by the President by proclamation in the *Gazette*.

3. DEPARTMENTS / BODIES / PERSONS CONSULTED

Extensive consultation has taken place with coastal communities, a range of NGO's and the parties represented at NEDLAC.

The Department will host an intergovernmental stakeholder workshop with key identified departments, at the national and provincial level, to outline roles and responsibilities of each department in the roll out of the Small-Scale Fisheries Policy.

4. FINANCIAL IMPLICATIONS FOR STATE

The estimated cost for implementing the Small-Scale Fisheries Policy is R424 642 374 over five years. The summary of required resources, goods and services, capital item and contingency costs will be absorbed in the resources of the Department, or bid for through MTEF processes.

5. PARLIAMENTARY PROCEDURE

5.1 The State Law Advisers and the Department of Agriculture, Forestry and Fisheries are of the opinion that this Bill must be dealt with in accordance with the procedure prescribed by section 75 of the Constitution since it contains no provision to which the procedure set out in section 74 or 76 of the Constitution applies.

5.2 The State Law Advisers are of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003), since it does not contain provisions pertaining to customary law or customs of traditional communities.
